

EEZY KEYZ® Conferencing Solution – Beta Testing on Chrome & Edge Browsers

If you want to use EEZY KEYZ® Conferencing Solution on a desktop, you can do so on Chrome or Edge.

Register your EEZY KEYZ® account and log in

1. On Chrome or Edge, go to <https://chat.eezykeyz.fi/>
2. Click “REGISTER ACCOUNT”.
3. Type in your handle that will be your user name and visible to others on EEZY KEYZ® chat.
4. Type your password and confirm it.

NOTE! We will not get your password and it cannot be reset, so keep it safe!

Add contacts and start messaging

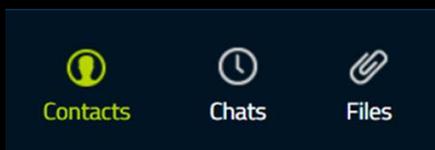

When you have registered your EEZY KEYZ® account, you can start testing as you like.

To add contacts and start messaging:

1. Click the find contacts icon.

2. Type the handle or email address of your contact into the search field and click “Find contacts”.
3. Select the contact and click “Chat with user”.
4. The contact is now added to your “Contacts” list and you can start messaging.
5. After sending the first message, the contact is added also to the “Chats list”.

To create a group chat:

1. Click the dot menu icon.
2. Select "Create group".
3. Click the settings icon to name your group and give it a topic if you like.

4. Click the plus icon to add contacts to your group.

Audio/video calls and attachments

With EEZY KEYZ[®] Conferencing Solution, you can also make encrypted audio and video calls by clicking the appropriate icons.

By clicking the attachment icon, you can send encrypted documents.

Log out

To log out of the chat:

Click the settings icon on the top left corner and select "Log out".
