

## EEZY KEYZ® Conferencing Solution – Beta Testing the iOS App

### Install the app

1. On your iPhone, go to <https://testflight.apple.com/join/2yggqMsU0>
2. Install TestFlight software.
3. TestFlight guides you to install the EEZYChat Beta app.

### Register your EEZY KEYZ® account and log in

If you already have used EEZY KEYZ® Conferencing Solution on Android or browser, you can log in with the same credentials on iOS.

If you are testing EEZY KEYZ® Conferencing Solution for the first time,

1. On the app, tap “Create account”.
2. Type the handle that will be your user name and visible to others on EEZYChat.
3. Type your password and confirm it.

NOTE! We will not get your password and it cannot be reset, so keep it safe!

### Add contacts and start messaging

When you have installed the app and created your EEZY KEYZ® account, you can start testing as you like.

To add contacts and start messaging:

1. Tap “Contacts” on the bottom left corner of the app.
2. Tap the plus (+) sign on the top right corner.
3. Type the name of the contact you want to add in the “Search” field.
4. When you find the contact, tap the name and send a message.
5. After sending the message, the contact appears on the “Chats” list.

To create a group chat:

1. On the “Chats” list, tap the plus (+) sign on the top right corner.
2. Choose the contacts you want to add to the group and tap “Create”.
3. Now you can start chatting in the group.
4. By tapping “Edit” on the top right corner, you can rename the group and remove participants.
5. By tapping “Add contacts”, you can add more participants to the group.

### Updates

When a new beta version has been released, you can get it from TestFlight.
